Dear Tiziano,

Thank you for the excellent material that you sent to me on the Piuma Motorglider. I have incorporated 2 color photographs and a 3 view into an overhead projector view graph for my lecture at the Symposium at the National Soaring Museum in Elmira New York, July 16th. I will also display the excellent Construction Book and Materials Note which you sent.

I enclose a complimentary copy of a small booklet based on my lecture material which includes on page 62 instructions on how to obtain Piuma plans.

Thank you for your fine response to my letter. I wish you much success with your fine design.

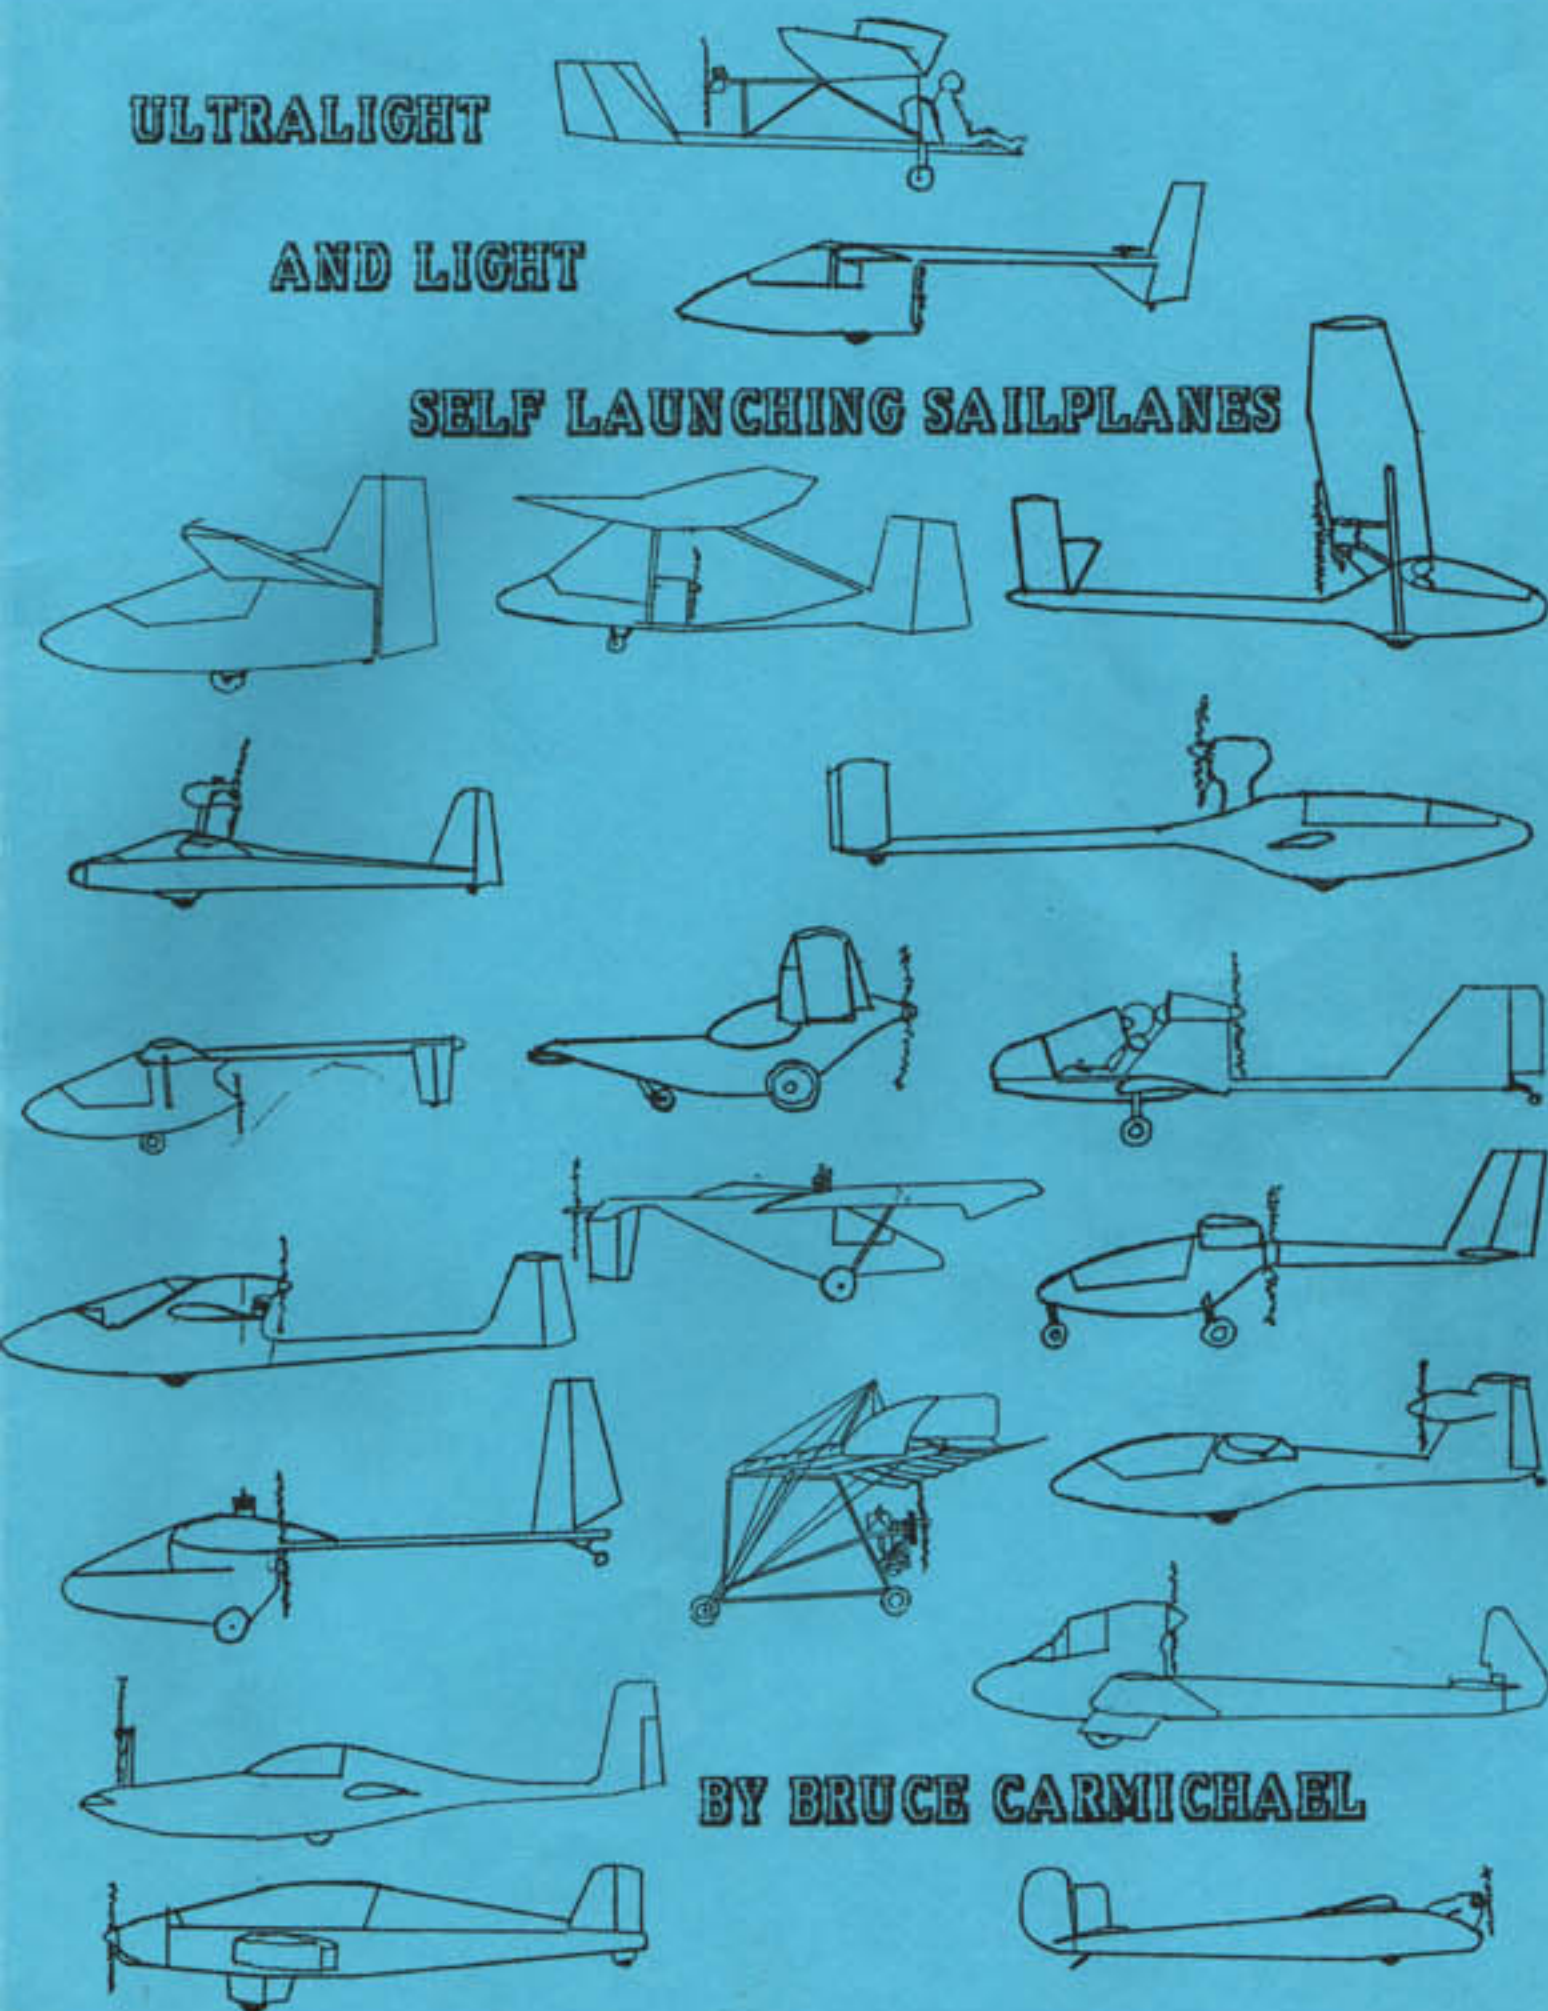

Sincerely yours,

Bruce Carmichael
